

Intro to Nursing and Healthcare 110

ASD-N ICE Centre

PROGRAM OVERVIEW

The ASDN ICE Centre is a career education centre that offers students an opportunity to explore a possible career paths while developing hands on skills. All courses offered at the ICE Centre are in collaboration with NBCC Miramichi. We have several classrooms and The IDEA Room at the NBCC Miramichi campus. Students will earn credits from their respective High School while also earning possible NBCC credits in their respective field.

Our objective is to provide students with the opportunity to explore a possible career path and develop a plan for their future.

Students entering any course at the ASDN ICE Centre will be treated as NBCC students. They will experience Post-Secondary Education and gain a better understanding of the independence that is required in life after high school.

COURSE DESCRIPTION

Intro to Nursing and Healthcare is a hands-on experiential learning course where students will explore a variety of career opportunities in the health care field. Health care is one of the largest areas of diverse career opportunities and has shown continued growth and stability.

Careers are continuing to grow rapidly in all occupations and are expected to continue to grow as our population ages. This course will help students explore possible health care career paths and gain a better understanding of the various options in the field as well as the post-secondary requirements.

The course will be structured as follows:

- 90 hours of field experience
- 90 hours of instruction
